# For Small Homes : Arsne Tables and Chairs From Belenus Ltd

MARCH 23, 2011 | DECORATION TIPS, FOR SMALL HOMES, HOME DECOR | [f](#) SHARE | [0](#) [tweet](#)

As the size of HDB & Condo apartments are getting relatively small today. We are also pretty much restricted in the range of furniture that we could find to fit our home. It's even tougher to find well attractive and well designed furnishing.

By French designer Guillaume Delvigne and architect Vincent Eschalier, the brand new Arsène range is a symbolic of the pursuit for new archetypes between minimalism and comfort. The Arsène range of lacquered monochrome wood tables and chairs in kit format is destined for mass-production. It is something that you might want look forward to as it gets distributed.

The moment i saw the pictures, it immediately caught my eye. It would be a perfect fit as a dining table for a small family living in a 4 room flat. The red collection is just outstanding, but what makes it more exciting is that it comes in 6 different colors, black, blue, green, red, white and yellow. The modern chic design and wide range of colours would definitely add more fun and expression to your home.
